Introduction to Snorkelling

Throughout the week our snorkel instructors offer free information and introduction to snorkeling sessions, where guests are informed about the best areas to snorkel around Kuredu, snorkeling activities on offer and go through basic snorkeling technique in our sheltered lagoon.

Snorkel Tours

The snorkel tours provide guided tours of the reefs and lagoons directly accessible from the island of Kuredu, great for those just starting out, or who want to learn more about our resident turtles.

Half day Snorkel Boat Trips

Snorkelling from the boat allows you to explore some fantastic reefs in the area of Kuredu. Our half day trips visit two different reefs close to the resort, and last 2.5 hrs. The trips cater for a range of experience levels and are suitable for ages 4+.

Full day Snorkel Boat Trips

A full day snorkel trip allows us to explore a larger part of the Lhaviyani atoll, further from Kuredu. Typically we visit two snorkel sites in the morning, and two in the afternoon, with lunch provided on the boat. This trip can also be combined with our Manta course, where guests can learn more about these majestic creatures and the research that Prodivers is involved with, suitable for ages 6+.

Snorkel Courses

Snorkel courses are available on request through the dive center. The beginners courses offers a more in-depth, and personalised introduction to snorkeling than the free of charge Intro, and is ideal for those with little or no snorkeling experience who wish to quickly become comfortable in the water.

Apnea Introductions provide an insight into the world of Free-diving, including the correct and safe technique for breath holding, diving and ascending.

During the photography courses guests are taught about basic photographic technique, in and out of the water, and on ways to approach and get close to marine life without disturbing or harming the environment.
